

PTE coaching programs at Kingsway Institute are well designed and result driven programs. Kingsway Institute offers other English language courses and that is also a reason why we know how to teach PTE better than others. We can quickly analyze a student's level to see if they are able to achieve their desired result. Our practical tips and expert materials will be a key to a future student's high score in the PTE exam.

We offer a high-quality PTE preparation course in the Sydney CBD and students have quoted: "We have studied PTE course at Kingsway Institute and we have had the best study experience ever!" Our PTE coaching programs aim to help students to achieve the best possible result in a PTE exam. PTE skills training and practice are enjoyable thanks to our friendly and proactive PTE exam trained teachers. Our teachers not only teach the PTE courses but have also taken the test and achieved the highest possible score of 90, enabling them to pass down their experience to the students. Our teachers are result driven and their objective is to help students to achieve a better result than what they desire.

The structure of our PTE coaching programs involve the newest teaching methods, giving our clients the best chances to gain the result needed. We have a traceable record that students who were taught

by our teachers have scored higher than the score originally requested. These clients are either happy PR holders or successful university/college students.

This 4-week PTE preparation course is designed for students who wish to improve quickly and want to obtain highest possible scores in order to get the required level of points for immigration or university.

This is our most effective course in terms of boosting a student's chances in achieving the best possible score. The course is customized for two students with one teacher. It is an intensive, 20 hour tailored course where both students will receive a custom-made study plan including personalized teaching materials. Tips and strategies will be provided to the students to improve on their weaknesses which will lead to the best possible score in the PTE exam. Students will be fully prepared for all four sections of the PTE Academic exam – Speaking, Writing, Reading and Listening.

Students will receive training from expert teachers who know how to achieve these high scores. These teachers are experienced and have reputable success in helping their students to achieve their goal in a very short time. This program can be for students who either did not achieve a required score or for newcomers who have not taken the PTE test before.

In this course, students will receive a detailed description of how to practice for the test. Teachers will use effective strategies in class to maximize a student's understanding of the test. Students will also understand how to plan their home study so they can work on their weaknesses. Teachers will help students improve in parts of the test where students have limited knowledge and explain through practical examples on how to beat the test. Students will also be able to take a PTE mock-up test on the computer so they can experience what the test is going to be like (fees apply).
